

Annual General Meeting of First Sensor AG on May 24, 2017

Curriculum vitae Prof. Dr. Christoph Kutter, Director of Fraunhofer EMFT, Munich

After completing his physics studies at TU Munich, Prof. Dr. Kutter first worked as a research association at the MPI High Magnetic Field Laboratory in Grenoble, where he wrote his dissertation. In 1995 he earned his doctorate in physics at the University of Konstanz. He then took a job as a development engineer at Siemens Halbleiter in Munich. He held various management positions in Development at Siemens AG, later known as Infineon Technologies AG; most recently he was Corporate Vice President of R&D Excellence. Since 2012 Prof. Dr. Kutter has been director of the Fraunhofer Research Institution for Microsystems and Solid State Technologies EMFT and a professor for polytronic systems at Bundeswehr University in Munich. His primary research interests are sensors and actuators for humans and the environment.

Career history

2012	Director, Fraunhofer Research Institution for Microsystems and Solid State Technologies EMFT, Munich Appointed a professor for polytronic systems at the Bundeswehr University in Munich
2010	Corporate Vice President R&D Excellence, Infineon Technologies AG, Neubiberg
2004	Senior Vice President Product and System Development/ Business Group Communications, Infineon Technologies AG, Neubiberg
2003	Senior Vice President Corporate Research, Infineon Technologies AG, Neubiberg
2002	Responsible for the "R&D Excellence Office," Infineon Technologies AG, Neubiberg
2001	Vice President Development Business Group Security and Chipcard ICs, Infineon Technologies AG, Neubiberg
1995	Doctorate in physics, University of Konstanz

Current mandates on supervisory and advisory boards

VDI/VDE Innovation + Technik GmbH, Berlin
