

REMUNERATION REPORT FOR THE 2021 SHORT FINANCIAL YEAR

The following remuneration report in accordance with Section 162 of the *Aktiengesetz* (AktG – German Stock Corporation Act) presents and explains the remuneration of current and former members of the Management Board and the Supervisory Board of First Sensor AG in the 2021 short financial year. As an aid to understanding, the basic features of the remuneration system for the Management Board and the Supervisory Board applicable in the 2021 short financial year are presented as well.

REMUNERATION SYSTEM OF THE MANAGEMENT BOARD

Resolution on the approval of the remuneration system for the members of the Management Board

The current remuneration system for the members of the Management Board of First Sensor AG was resolved by the Supervisory Board – with outside expert assistance – in accordance with Sections 87(1), 87a(1) AktG on April 29, 2021 and approved by the Annual General Meeting on June 24, 2021 with a majority of 89.78% of the capital represented.

The remuneration system is consistent with the requirements of the German Stock Corporation Act, in particular the requirements of the *Gesetz zur Umsetzung der zweiten Aktionärsrechterichtlinie* (ARUG II – German Act on the Implementation of the Second Shareholder Rights Directive), and is based on the recommendations of the German Corporate Governance Code as amended December 16, 2019.

Application of the remuneration system for the Management Board in the 2021 short financial year

Since the resolution by the Supervisory Board, the current remuneration system for the Management Board has been taken into account by the company when entering into new Management Board contracts and when renewing such contracts previously entered into with the company.

If members of the Management Board, in accordance with Section 162 AktG, were granted individual remuneration elements in the 2021 short financial year that were committed to in previous financial years under the remuneration system in place at the time, these elements have also been presented and explained.

The remuneration system for the members of the Management Board of First Sensor AG, is reviewed by the Human Resources and Nomination Committee of the Supervisory Board on an ongoing basis, in particular in conjunction with contract negotiations with existing or future members of the Management Board. However, there is no formal or regularly scheduled review.

Disclosures on remuneration components

The remuneration of the members of the Management Board consists of performance-based and non-performance-based components. Using this combination, the company creates an attractive incentive for members of the Management Board to contribute towards the sustainable and long-term development of the company.

Variable remuneration components provide the material incentive to pursue the aims of business policy. They motivate and reward specific action, operational performance, a strategic approach that promotes the long-term development of the company and responsible conduct.

The variable remuneration is dependent on the achievement of multiple goals set in advance by the Supervisory Board. The achievement of goals does not necessarily have to be exactly measurable, but it must be verifiable. The connection between the achievement of goals and the variable remuneration must be set in advance and cannot be subsequently altered.

The variable remuneration consists of short-term variable remuneration (short-term bonus) and long-term variable remuneration (long-term incentive program).

The short-term variable bonus is calculated according to the Annual Incentive Plan (AIP) of the TE Connectivity Group. The purpose of the AIP program is to reward managers for achieving financial or strategic performance targets. There is no guaranteed minimum achievement; it is therefore possible for the short-term variable bonus not to be paid at all. The amount of the short-term bonus under the AIP program is determined by the Supervisory Board of the company within six months of the end of a financial year and paid to the members of the Management Board.

As long-term variable remuneration, the members of the Management Board receive restricted stock units (RSU) of TE Connectivity Ltd. in conjunction with its long-term incentive (LTI) program. TE Connectivity Ltd. uses LTI awards to offer competitive compensation that recognizes employees' contributions and aligns their remuneration with shareholder interests by focusing on long-term growth and stock performance.

REMUNERATION COMPONENT	ASSESSMENT BASE/PARAMETERS
Non-performance-based remuneration	
Fixed salary	Non-performance-based fixed remuneration paid in monthly installments
Additional benefits	Use of a company car or rail card (BahnCard 100), first class; insurance premiums; other one-time or temporary (provisional) benefits on recruitment; reimbursement of costs of business travel
Performance-based remuneration	
Short-term variable remuneration	<p>calculated according to the Annual Incentive Plan (AIP) of the TE Connectivity Group</p> <ul style="list-style-type: none"> – annual incentive target amount as a percentage of fixed salary – performance level on the basis of various key performance indicators, e.g. sales and operating result (60%), other KPIs and earnings per share of TE Connectivity Ltd. (40%) – calculation of the annual incentive award by multiplying the annual incentive target amount by weighted target achievement (0-200%) and the personal performance factor (0-200%) – Payment must not exceed 300% of the individual annual incentive target amount (cap).
Long-term variable remuneration	<p>Share-based long-term remuneration, term 4 years: issue of restricted stock units (RSU) of TE Connectivity Ltd. in conjunction with its long-term incentive (LTI) program</p> <ul style="list-style-type: none"> – award of a number of RSUs at an award date – four-year vesting period, i.e. members of the Management Board earn a quarter of the initially awarded RSUs per year – vested RSUs are converted into shares of TE Connectivity Ltd. that can be sold during a trading window. <p>The value of the RSUs is determined as of the grant date. The basis assumed for this is a maximum increase by the end of the vesting period of 200% compared to the grant date (calculation of maximum remuneration).</p>
Maximum remuneration	<p>Cap on the total amount of remuneration granted for a financial year in accordance with Section 87a(1) sentence 2 no. 1 AktG:</p> <ul style="list-style-type: none"> – The maximum amount of remuneration for a financial year – regardless of whether this is paid in this financial year or at a later date and subject to the caps on short-term and long-term variable remuneration – is €580,000 for all members of the Management Board.
Severance cap	Entitlement to payment of severance in the amount of the fixed annual salary for the remainder of the contract term, though not more than €500,000 (cap); if there is a post-contractual, non-competition clause, the severance payment does not count towards the related compensation; the severance cap and the compensation for observing the non-competition restriction are both limited to two fixed annual salaries in total
Penalty and claw-back regulations	n/a

If the conditions are satisfied in the vesting period of the next four years, the remuneration of the members of the Management Board breaks down as follows:

- fixed remuneration accounting for around 35% of maximum remuneration (fixed annual salary and other emoluments);
- short-term variable remuneration (AIP) accounting for around 30% of maximum remuneration;
- long-term variable remuneration (LTI) accounting for around 35% of maximum remuneration.

The remuneration system does not require members of the Management Board to acquire and hold shares in the company (Share Ownership Guidelines).

Former and current members of the Management Board receive no pension commitments.

Disclosures on shares and stock options

The members of the Management Board do not receive any remuneration components in the form of shares or stock options in First Sensor AG. The long-term variable remuneration is exclusively accounted for by the TE Connectivity Ltd. restricted stock units program.

Disclosures on the claw-back of variable remuneration components

The remuneration of members of the Management Board ensures that special achievements are appropriately rewarded and that the failure to achieve targets leads to a tangible reduction in remuneration. Given the strong need for strategic changes at First Sensor, the Supervisory Board chose not to introduce claw-back clauses when designing the remuneration system.

Disclosures on departures from the remuneration system

The company has not entered into service contracts with any of the members of the Management Board currently appointed. All the members of the Management Board currently appointed worked for Group companies of TE Connectivity prior to working for First Sensor and are remunerated by those companies. The members of the Management Board have not received any additional remuneration for assuming a position on the Management Board of First Sensor. The First Sensor remuneration system therefore does not apply to them, but this does not constitute a departure from the remuneration system.

Disclosures on the implementation of the Annual General Meeting's resolution

The remuneration system for the Management Board is taken into account by the company when entering into new Management Board contracts and when renewing such contracts previously entered into with the company. The remuneration system therefore did not apply to the contract with Markus Resch, which was already in effect at the time the resolution was adopted and ended as of May 31, 2021. The members of the Management Board Sibylle Büttner, Robin Maly and Dirk Schäfer were appointed before the resolution was adopted. All three members of the Management Board are remunerated through their contracts with TE Group companies, which do not contain remuneration components for their work as members of the Management Board of First Sensor AG. The remuneration system therefore does not apply to their work.

Disclosures on compliance with the maximum remuneration

The currently appointed members of Management Board do not receive remuneration for their work on the Management Board of First Sensor AG from First Sensor AG or any other companies of TE Connectivity. The maximum remuneration under the remuneration system therefore does not apply to them.

The contract with Markus Resch was ended early as of May 31, 2021 in the 2021 short financial year. In return, he received severance pay of €345,000. He is not owed any further remuneration as of September 30, 2021. After working for the Management Board of the company, a consulting agreement was entered into with him, which ended as of October 31, 2021.

Defined benefits from third parties

The members of the Management Board have not received any defined benefits from third parties in connection with their work as members of the Management Board of First Sensor AG. They also do not receive variable remuneration components based on the operational or strategic goals of First Sensor AG.

Benefits in the event of regular contract termination

Separate regulations for the event of regular contract termination are not intended and no agreements have been made in this regard.

REMUNERATION SYSTEM FOR THE SUPERVISORY BOARD

Resolution on the remuneration system for the members of the Supervisory Board

The remuneration of the members of the Supervisory Board is resolved by the Annual General Meeting. Their remuneration is governed by Article 13 of the Articles of Association of the company. The Management Board and the Supervisory Board have reviewed the remuneration of the members of the Supervisory Board and have concluded that the current remuneration for the members of the Supervisory Board of the company is appropriate. The Management Board and the Supervisory Board therefore proposed to the Annual General Meeting on June 24, 2021 that the remuneration system for the members of the Supervisory Board be left unchanged. This proposal was approved by a majority of 99.99% of the capital represented.

Structure and application of the remuneration system for the Supervisory Board

The remuneration system for the Supervisory Board is governed by the Articles of Association and sets out both the abstract and specific framework for the remuneration of members of the Supervisory Board. This guarantees that the remuneration of the members of the Supervisory Board is always consistent with the remuneration system resolved by the Annual General Meeting.

The members of the Supervisory Board of First Sensor AG receive fixed remuneration for their work, the amount of which is dependent on their individual responsibilities within the Supervisory Board. Variable remuneration dependent on specific achievements/targets is not intended for the members of the Supervisory Board. The remuneration also covers the membership and chairmanship of committees. Members of the Supervisory Board who belong to the Supervisory Board for only part of the financial year receive pro rata temporis remuneration.

The Supervisory Board reviews the structure and appropriateness of its remuneration at irregular intervals, though not less than once every four years, with the assistance of the Human Resources and Nomination Committee. Given the particular nature of Supervisory Board remuneration, which fundamentally differs from the work of the company's employees on account of its supervisory nature, there is no vertical comparison between employee and Supervisory Board remuneration.

Each member of the Supervisory Board receives basic annual remuneration of EUR 20,000. The Chairman and Deputy Chairman of the Supervisory Board receive higher remuneration in consideration of their increased organizational and administrative workloads. This amounts to EUR 50,000 for the Chairman and EUR 30,000 for the Deputy Chairman.

The company provides the members of the Supervisory Board with insurance coverage appropriate to their work on the Supervisory Board and pays the corresponding premiums. The company also reimburses each member of the Supervisory Board for any reasonable expenses incurred in the performance of their duties for which proof has been provided and for any VAT that is incurred on their remuneration.

The members of the Supervisory Board receive fixed remuneration only; variable remuneration dependent on specific achievements/targets is not intended for the members of the Supervisory Board. As such, remuneration can only be aligned with business strategy to a limited extent, and therefore has only a limited influence on the long-term performance of the company. However, First Sensor AG strongly believes that fixed remuneration is the most appropriate system for the objective supervisory function of the Supervisory Board and its neutral advisory activities. The Supervisory Board can thus orient its decisions according to the benefit of the company and thus a long-term business strategy and sustainable development without pursuing other motives at the same time.

In the 2021 short financial year, the remuneration system for the Supervisory Board was applied in all aspects as governed by Article 13 of the Articles of Association. The members of the Supervisory Board did not receive any further remuneration or benefits for personally performed services, in particular consulting and or brokerage services, in the reporting year. Furthermore, the members of the Supervisory Board were not granted any loans or advances and no contingent liabilities were entered into on their behalf.

Disclosure of personal remuneration of the Supervisory Board
