

Press release, December 18, 2019

First Sensor expands network

The First Sensor location in Berlin-Weißensee is a member of the Wirtschaftskreis Berlin-Pankow e.V. from January 2020. "We are very pleased that First Sensor will become involved in our network," says CEO Christine Beck-Limberg. "The company is one of the biggest employers in the district, and together we can achieve a lot".

First Sensor is part of several partner [networks](#) worldwide and a member of various business and trade associations. For the company, this cooperation is the basis for innovation and thus an important building block for growth and success.

"For us, a commitment to the neighbourhood is an expression of the social responsibility we have and assume. The areas are very diverse. For many years we have been working together with a neighboring all-day school and open the doors for parents and their children who are looking for an apprenticeship," says Stephanie Volkmer, site manager in Berlin-Weißensee. "The companies in our neighborhood support each other in infrastructure projects for our industrial park and introduce themselves to local residents as potential employers, as in [April](#) of this year.

About First Sensor AG

Founded as a technology start-up in the early 1990s, today, First Sensor is a global player in sensor technology. With our expertise in chip design and production as well as microelectronic packaging, we develop and produce standard sensors and customer-specific sensor solutions in the fields of photonics, pressure and advanced electronics for the ever-growing demand in key applications for the target markets of Industrial, Medical and Mobility. With around 1,000 employees, we are represented at six German locations and also have development, production and sales sites in the USA, Canada, China, the Netherlands, Great Britain, France, Sweden and Denmark along with a worldwide partner network. First Sensor AG has been listed in the Prime Standard segment on the Frankfurt Stock Exchange since 1999. For more information please visit www.first-sensor.com.
